Dear Karin,

It has been a pleasure to have been introduced to your product and your family.

I would recommend the Swedish Mastercare system to any clinic that would like to help their patients alleviate low back pain quicker or incorporate rehabilitative exercises into their office. I have integrated the inversion therapy on many patients for the last two years and have had tremendous success. The inversion table does everything you have claimed and I would highly recommend it to any office.

Working with your family and company has been an added bonus and I look forward to the relationship over the years.

Yours in Health,

Michael C. Bishop, B. S., D.C.
