

LETTER OF RECOMMENDATION FROM EX AMATEUR JOCKEY

I felt that I had to write to you to thank you for the wonderful benefits that I am now enjoying as a result of using your Mastercare Inversion Table.

I have been suffering from severe back pain problems for many years and have spent thousands of pounds on Osteopaths fees.

In July 2001 I was admitted to hospital after collapsing at home and was unable to stand.

I had severe back pain and was given an MR scan to my lower back, but unfortunately the hospital could find no reason for this condition.

I was informed that no more treatment, other than physiotherapy could be offered to me, and I was then issued with a pair of crutches and a walking frame.

At this point, in the presence of my youngest son and two physiotherapists, I broke down in tears and told them all that I would rather die than ever use these appliances.

I discharged myself three days later and returned home, at which time my wife was convinced that I would never leave the house again as I was still walking doubled up.

A few weeks later I was in discussion with an old business friend who told me about the Mastercare Inversion Tables so I duly made contact with yourselves, and, as you know, purchased a Table immediately.

Within two weeks I began to feel the benefit of using the Table, and for the first time in many years I was able to lead a normal life, free from back pain, and today I am still able to walk upright without the aid of either crutches or a walking frame.

If you have any customers in the future who are in any doubt whatsoever about the benefits of using the Tables, please do not hesitate to give them my address and telephone number as I would be delighted to talk to them.
