

RECOMMENDATION FROM A FITNESS CENTRE

There is a Mastercare Inversion Table presently installed in one of the largest Fitness Centres in the North of England.

They are very pleased with the amount of interest that it has attracted, and also the amount of additional business that it has promoted.

Whilst some of their members ceased visiting the Centre due to back problems etc., they have now found that this particular piece of equipment has enable those members to not only return to use their fitness facilities, and of course the Table, but also attracted new members.

Young's Fitness Centre
